

**Knowledge Direct Medical** is a learning management system that enables your staff to create, deliver, administer and market:

- Certification programs
- Continuing education
- Professional development

As the healthcare landscape changes more rapidly, learners need an eLearning system that's flexible and portable. Now learning happens whenever and wherever your audience needs it. And Knowledge Direct Medical is easy to use, fast to deploy, and more affordable than comparable solutions.

**Knowledge Direct Medical** lets you create and manage your own interactive eLearning content using Microsoft® PowerPoint®, and then export it to the Web, mobile device, and even a version for iPods. Integrate with your AMS, then effortlessly administer your learning with built-in course creation, testing, reporting and tracking. With easy to manage learner profiles, you can prescribe learning paths and monitor progress, ensuring learners are complying with organizational, licensing or other training requirements.

Reandacil	Loramyl
Overall Patient Response Rates	Overall Patient Response Rates
59%	26%
Progression-Free Survival Periods	Progression-Free Survival Periods
18 months	6 months

Narrator: Reandacil's results in clinical trials indicate that it will be very successful in treatment of CLL, as compared to a leading competitor.

Course created using built-in authoring tool

### Features:

- Integrates with ABIM, your AMS and other third-party systems

- eCommerce shopping cart and course catalog
- Pre- and Post-testing
- Robust test engine
- Built-in content creation tool
- Learner eTranscripts
- Social network integration to promote and market your courses
- Built-in learner registration

*"Digitec has been responsive to our every need. They came highly recommended by another medical specialty society that had undertaken a similar project; so we were confident that they understood our plans, concerns and needs. Overall, it has been a very efficient and pleasurable experience working with Digitec and their staff — on-time performance, goals met and technical support always available — the basics of success."*

**Kathleen Matikonis**

Administrator Dashboard

## Administration Features

<b>AMS &amp; Third-Party Integration</b>	Provide learners with single sign-on and the ability to securely share credits earned with third-party systems.
<b>Reporting</b>	View real-time, web-based reports on learner completions, status, course access, test scores and surveys. Filter reports and export to Excel.
<b>Alerts and Broadcast Emails</b>	Set up automatic event-triggered emails to learners, based on new course assignments, non-attendance and completions.
<b>Mobile Learning</b>	Create content in PowerPoint and export for smart phones, tablets and MP3 podcasts.
<b>Testing</b>	Create assessments using a variety of test question types.
<b>SCORM Conformant</b>	Import and export SCORM-conformant course content.
<b>Assessment Engine</b>	Provide learners with comprehensive feedback to questions, with the ability to include reference links.
<b>eCommerce</b>	Take advantage of built-in course catalog and integrated eCommerce shopping cart to provide learners with instant access to courses.
<b>Integrated eLearning Marketing Tools</b>	Promote new course offerings to existing learners.
<b>Automated Course Catalog</b>	Create content, describe it, price it and instantly publish it to your course catalog for purchase.

## Learner Features

<b>Assessment Engine</b>	Pause and resume assessments; for increased usability.
<b>Tailored Training Menu</b>	Access registered courses, recommended courses, completion status, scores, certificates and alerts.
<b>ABIM Verification</b>	Self-verify eligibility for available credit from the American Board of Internal Medicine (ABIM) from the Training Home Page.
<b>Discussions</b>	Collaborate using the integrated moderated discussion forum.
<b>Search</b>	Search assigned course content, including PDF files and the Knowledge Direct <i>Direct-to-Web</i> Flash content for just-in-time learning support.
<b>Learning Outcomes</b>	Realize learning outcomes following pre- and post-tests.
<b>eTranscript</b>	View comprehensive reports on course activity, test scores, course completions and credits earned.
<b>ABIM Credit Pipeline</b>	Submit activities directly to ABIM for credit, following course completion.

**Some of the organizations using Knowledge Direct**

*"Knowledge Direct has one of the cleanest, easiest to use administrative interfaces of any system we've seen."*
